<How to use>

RECOMMENDATION

It is recommended to
remove contact lenses
before each lifting
treatment.

1 CLEAN SKIN AND BROWS

Clean the skin and brows
with micellar water.

2

Use of the foil

3

4

2

APPLY THE LIFTING LOTION #1

Apply Lifting Lotion #1 evenly on the entire brow.

Quick Tip

USAGE OF THE FILM

Cover the brows with lifting foil to enhance the process during the application of both Lotion #1 and Lotion #2.

3

REMOVE LOTION #1

After the recommended exposure time, remove Lifting Lotion #1 and clean the brows with a dry cotton swab.

CAUTION: Heat and moisture accelerate the lotion's effect.

4

APPLY SETTING LOTION #2

Apply Setting Lotion #2 to the entire brow.

Exposure times	Lifting Lotion #1	Setting Lotion #2	Keratin Intensive Lotion #3
Very fine hair	8 minutes	6 minutes	4 -5 minutes
Normal hair	9-10 minutes	7 minutes	4 -5 minutes
Thick hair	11 minutes	8 minutes	4 -5 minutes

5

REMOVE LOTION #2

After the recommended exposure time, remove Setting Lotion #2 and clean the brows.

6

PREPARE THE TINT

For perfect results, tint the brows using andmetics professional Brow & Lash Tints. Mix the color with a creamy or liquid tint developer in a 1:1 ratio.

7

TINT THE BROWS

Cover the brows fully with the tint. The exposure time varies depending on the desired result.

TINT DEVELOPER LIQUID

1:1

Mixing ratio

1cm tint : 8-10 drops

Hydrogen peroxide
3 % 10VOL!

TINT DEVELOPER CREAM

1:1

Mixing ratio

1cm tint : 1cm developer

Hydrogen peroxide
3 % 10VOL!

Our tint shades:

8

9

8

REMOVE THE TINT

Carefully remove the tint and clean the brows thoroughly.

9

APPLY KERATIN LOTION

Apply the Keratin Intense Lotion #3 to the brows and remove after 4-5 minutes.

Refer to the table on page 5 for exact processing times.

Admire the result!

Important Note

For a perfect, long-lasting result, avoid contact with decorative cosmetics, water, toner, makeup remover, etc., on freshly lifted brows for 24 hours.
